

New Worship Protocols - effective immediately

In consultation with the Bishop of the Diocese of Arizona and our Rector and Vestry we are announcing some significant and welcome pandemic-related changes for Sunday worship here at St. Francis.

Here's what changes:

- Reservations are no longer necessary in order to attend Sunday services (yea!),

- Taking your temperature upon arrival at church is no longer required,

- Masks are optional **if**

- you are fully vaccinated and

- do not have immune deficiency issues

- in terms of room capacity we will add one more person per pew

Here's what stays the same:

- Masks are still required if you are not fully vaccinated or have immune deficiency issues,

- We are still confined to no more than 50% capacity in the Church (even though we are adding another person per pew), and that means

- social distancing is still in effect in the Church (but not outside) and that

- Ushers will still seat you, and

- All sanitary protocols currently in effect will still be observed. You may be sure surfaces are clean and ready for you to occupy.

Please Note: If you are participating in Sunday worship via You Tube or Face Book and need a communion wafer, please contact Fr. Warren (frwarren@stfrancisgvaz.org), Father Nelson (nelson@stfrancisgvaz.org), or Deacon Becky (1beckyw@cox.net) and they will make arrangements for you to pick one up at the Parish Office. (You may also leave a phone message for the Clergy at 520-625-1370.) Sunday service leaflets will be available Saturdays on the bench outside the Parish Office.
